OUR QUALITY POLICY

Our quality policy is built upon the principles of continuous improvement, innovative thinking, and customer-centricity. Our goal is to deliver flawless product and service quality while securing a sustainable competitive edge within the global automotive value chain.

To achieve this goal, we are committed to:

- Proactively analyzing customer needs and striving to exceed expectations,
- Empowering our most valuable asset—our employees—through continuous development and a participative learning culture,
- Building quality-focused and growth-oriented partnerships with our suppliers,
- Establishing transparent, responsible, and sustainable collaborations with all stakeholders,
- Operating our Quality Management System with a risk- and opportunity-based mindset and making data-driven decisions,
- Integrating digitalization, automation, and sustainability-focused technologies into our processes,
- Acting in full compliance with legal regulations and with a strong sense of environmental and social responsibility.

With this mindset, we aim to:

- Maintain a competitive and efficient cost structure,
- Achieve zero defects in both products and processes,
- Deliver on time, in full, and at the right quality.

We are committed to continuous improvement and excellence every day.
